## Installation Instructions Speaker Grille Templates

### **METHOD I: When using RodDoors Designer Door Panels:**

- 1) Cut RodDoor panels to size
- 2) Find desired location for speaker.
- 3) Tape template to the RodDoor panel and drill through the template with a ¼" drill bit.
- 4) Remove template and clean up any burrs with a utility knife and sand paper.
- 5) Press in place the glued material on to the glued panel. (Leather, vinyl or tightly woven fabrics work best)
- 6) If using tweed or **contact** fabric it may not even be necessary to punch out any holes in the fabric. Reinstall the panel and do a sound check. If you need more sound or are using a leather or vinyl material proceed to step 7.
- 7) From the back side, place the panel over on a clean, medium firm surface (plastic or hardwood work well) and punch the holes through the panel and fabric, using the provided punch. Reinstall and do a sound check.

### **METHOD II: When using other materials for interior panels (wood or cardboard):**

- 1) Cut door panel to size
- 2) Find desired location for speaker.
- 3) Tape template to the door panel and drill through the template with a ¼" drill bit. If panel is cardboard mark holes, remove template and punch holes out with a ¼" punch.
- 4) Cleanup any burrs with a utility knife and/or sandpaper.
- 5) Press in place the glued material on to the glued panel. (Leather, vinyl or tightly woven fabrics work best) If using tweed or **contract** fabric it may not even be necessary to punch out any holes in the fabric.
- 6) Reinstall the panel and do a sound check. If you need more sound or are using a leather or vinyl material proceed to step 7.
- 7) From the back side, place the panel on a clean, medium firm surface (plastic or hardwood work well) and punch the holes through the panel and fabric, using the provided punch. Reinstall and do a sound check.
